Overview

CSlope Solutions LLC is an SBA 8(a) certified small business and joint venture between UpSlope Advisors, Inc and C-Edge Software Consultants, Inc. CSlope has been very successful in delivering and maintaining large- and small-scale programs by following proven development and sustainment support processes such as PMP, Agile, and ITIL.

We drive continual performance improvements through the life of the program and beyond, with an understanding of the critical nature of security, system availability, reliability and scalability, required to maintain the sensitive data of those who have selflessly accepted the call to protect our freedoms.

Offerings Include

- **Enterprise Architecture, Strategy, SOA**
We can help identify your organization’s technology gaps, risks, and determine how you can achieve your goal most effectively.
- **System Integration & Application Development**
We offer system integration and software development services on a variety of platforms. Our Software Development Life Cycle (SDLC) is a combination of Rational Unified Process, Agile and Rapid Application Development (RAD) methodologies.
- **Enterprise Data Management Solutions**
We are committed to effectively creating, integrating, disseminating and managing data for all enterprise applications and processes that require efficient data Management Solutions.
